

Exclusive Discounted Price DAIKIN 'New Old Stock'

DAIKIN VRV/VRF OUTDOOR UNITS

VRV III Units

Water-Cooled VRV

Mini-VRV

Summary of All Available Products

◆ Indoor Units

A wide mix of wall-mounted, cassette, concealed, and floor-standing models. Perfect for **system expansions, retrofits, and immediate replacements**. These units are in **high demand** by contractors who need to service active Daikin VRF systems.

◆ Outdoor Units

The **powerhouse of VRF projects**. These outdoor modules are **difficult to source anywhere else** and are essential for unlocking capacity in new projects and urgent retrofits. Stock is limited — once gone, projects depending on these models will be delayed or lost.

◆ Split Units

Complete indoor/outdoor pairs including **Ururu Sarara, Nexura, Emura, Concealed, and Ceiling Suspended ranges**. Highly attractive for the **residential and light commercial market**, where demand for reliable split systems remains strong.

◆ Accessories

Critical project components: **ventilation units, decoration panels, controllers, remotes, refnets, and chilled FCUs**. These parts are often the bottleneck that delays installation. Having them in stock gives you a **clear edge over competitors**.

◆ Spare Parts

Rare **original Daikin spare parts** for older systems, covering models from 2009–2017. These are especially valuable for **servicing discontinued lines**, helping contractors keep existing installations alive and customers satisfied.

📌 **Important:** Stock is available in **bundles only**. The more bundles you secure, the stronger your price advantage and priority in the allocation process.

👉 **Auction closes October 9, 2025.** Don't wait — register now to view full catalogues and submit your interest.

Why This Stock Is Special

This isn't just any inventory; it's a strategic asset for your business. We've secured a limited quantity of **original Daikin VRF Outdoor Units** that have been meticulously preserved as New Old Stock. This means you're getting authentic, high-quality products in perfect condition, ready to integrate into existing systems or cater to new projects.

Genuine Daikin Products

These units are original Daikin products, ensuring reliability and performance for your projects.

Rare Market Availability

Due to supply chain dynamics, these specific models are incredibly hard to source elsewhere, giving you a competitive edge.

Versatile Application

Ideal for system expansions, maintaining spare capacity, or profitable resale in your target markets.

Products in High Demand

Buyers across Europe, the Middle East, Africa, and Russia are actively seeking these units.

To maximize your advantage, this stock is exclusively offered in **bundles**, not individual units. Furthermore, a tiered pricing structure means **the more bundles you wish to get from stock, the more significant your savings and the stronger your market position becomes**. This is a unique opportunity to secure essential inventory that others simply can't find.

Available Outdoor Units

This table details the specific models available, their original specifications, and the quantities available for purchase.

<u>Model</u>	<u>Description</u>	<u>Quantity</u>	<u>Unit Load</u> <u>Kw</u>	<u>Total Load</u> <u>Kw</u>

RXYQ12P9W1B	VRV III HEAT PUMP OUT- RXYQ12P9W1B	1	33.5	33.5
Mini VRV				
RXYSCQ4TMV1B	VRV IV-S Heat pump out- RXYSCQ4TMV1B	3	11.2	33.6

Get An Advantage in Your Market

Securing these Daikin VRF Outdoor Units provides more than just inventory; it offers a substantial competitive advantage in a demanding market. These units represent a rare opportunity to fulfill urgent client needs, expand your offerings, and solidify your position as a reliable supplier/installer.

Rare Opportunity

This acquisition a unique strategic move for your business.

High Demand

Many existing HVAC systems worldwide still utilize these exact models, creating strong demand for replacements, expansions, and spare parts.

Strategic Location

We can ship anywhere, in any method across Europe, the Middle East, and Africa.

Discounted Price Advantage

Purchasing the Outdoor Units with the Indoor Units or Spare Parts provides you with a discount.

This limited-time offer empowers you to overcome supply chain challenges and meet immediate market demands with premium, hard-to-find Daikin products.
