

## Exclusive Discounted Price DAIKIN 'New Old Stock'

DAIKIN VRV/VRF SPARE PARTS

### **Summary of Spare Parts Available**

#### Printed Circuit Boards (PCBs & Inverter Boards)

Large volume of control boards, inverter assemblies, and printed circuits (EB-series, EC-series, SEB, etc.). These are critical for keeping older VRV/VRF and split systems operational when controllers fail.

#### **Compressors (Scroll & Rotary)**

Multiple Daikin scroll compressors (JT series) and rotary units, perfect for replacements in VRF systems. These are some of the most valuable spare parts in the aftermarket.

#### **Motors & Fan Assemblies**

Strong stock of fan motors, fan rotors, fan assemblies, vibration isolators, and blower parts, ensuring continued reliability of indoor and outdoor units.

#### **Sensors & Thermistors**

Dozens of thermistors, pressure sensors, humidity sensors, NTC sensors, and related detection parts. Essential for diagnostics and restoring precise system performance.

#### **Valves & Expansion Components**

Range of motorized valves, solenoid valves, expansion valves, and coil assemblies — all high-need components for repair and retrofit jobs.

#### **Capacitors, Filters & Electrical Components**

Capacitors, ferrite core filters, noise filters, lock nuts, magnetic relays, and accessories that keep systems electrically stable and extend life cycles.

#### Oil & Lubricants

Authentic Everest and Idemitsu oils for R22 and R410A systems. Rare consumables that are difficult to source but required for proper servicing.

#### **Drain Pumps, Strainers & Small Kits**

Drain pumps, water strainers, service kits, and filter accessories that contractors frequently need during maintenance and service jobs.

#### **Wire Harnesses & Connectors**

A variety of wiring harnesses, terminal blocks, and connection kits, ensuring smooth installation and replacement in older systems.

#### **Miscellaneous Spare Assemblies**

Includes housings, switch boxes, adaptors, expansion kits, and assorted mechanical spares — many of which are discontinued and impossible to find elsewhere.

(i) / Important: Stock is available in bundles only. The more bundles you secure, the stronger your price advantage and priority in the allocation process.

← Auction closes October 9, 2025. Don't wait — register now to view full catalogues and submit your interest.

## Why This Stock Is Special

This isn't just any inventory; it's a strategic asset for your business. We've secured a limited quantity of **original Daikin Spare Parts** that have been meticulously preserved as New Old Stock. This means you're getting authentic, high-quality products in perfect condition, ready to integrate into existing systems or cater to new projects.

#### **Genuine Daikin Products**

These units are original Daikin products, ensuring reliability and performance for your projects.

#### **Rare Market Availability**

Due to supply chain dynamics, these specific models are incredibly hard to source elsewhere, giving you a competitive edge.

#### **Versatile Application**

Ideal for system expansions, maintaining spare capacity, or profitable resale in your target markets.

#### **Products in High Demand**

Buyers across Europe, the Middle East, Africa, and Russia are actively seeking these exact units.

To maximize your advantage, this stock is exclusively offered in **bundles**, not individual units. Furthermore, a tiered pricing structure means **the more bundles you wish to get from stock**, **the more significant your savings and the stronger your market position becomes**. This is a unique opportunity to secure essential inventory that others simply can't find.

## **Available Spare Parts**

This table details the specific models available, their original specifications, and the quantities available for purchase.

## Get An Advantage in Your Market

Securing these Daikin Spare Parts provides more than just inventory; it offers a substantial competitive advantage in a demanding market. These units represent a rare opportunity to fulfill urgent client needs, expand your offerings, and solidify your position as a reliable supplier/installer.

#### **Rare Opportunity**

Some of these models are no longer readily available through standard distribution channels, making this acquisition a unique strategic move for your business.

#### **High Demand**

Many existing HVAC systems worldwide still utilize these exact models, creating strong demand for replacements, expansions, and spare parts. This stock directly addresses that critical need.

#### Strategic Location

Located in Cairo, our stock is optimally positioned for **efficient and rapid shipment** to key markets across Europe, the Middle East, and Africa, minimizing logistical delays and costs. We can ship anywhere, in any method.

#### **Discounted Price Advantage**

Purchasing in bundles provides significant cost efficiencies and strengthens your supply position, allowing you to offer competitive pricing and immediate availability to your clients.

This limited-time offer empowers you to overcome supply chain challenges and meet immediate market demands with premium, hard-to-find Daikin products.

Made with **GAMMA** 

# Limited Time Offer, Auction Ending Soon

Exclusive Daikin VRF Indoor Units - Auction ends in 45 days during the first week of October 2025. Limited supply, high demand. Secure these rare models before they're gone.

Exclusive
'New Condition
Old Stock'

#### Don't miss this chance to

- 1 Fulfill project needs
- 2 Expand your inventory
- 3 Strengthen your position
- 4 Get a discounted deal

Auction Ending Soon.
Secure your Position Now
